Passed Assistant Surgeon White reports as follows:

Week ended December 8, 1906. Restrictions enforced by Hongkong remain as reported on December 1, 1906. Restrictions enforced against Hongkong remain as reported on December 1, 1906. Communicable diseases: Smallpox, 1 case.

Week ended December 15, 1906. No communicable diseases.

Week ended December 22, 1906. Communicable diseases: Smallpox, 3 cases, 3 deaths.

Emigrants recommended for rejection.—Number of emigrants per steamship *America Maru* recommended January 8, 1907: For Honolulu, 1; for San Francisco, 9; in transit, 1.

Reports from Shanghai—Inspection of vessels—Smallpox.

Temporary Acting Assistant Surgeon Mills reports, January 2 and 8, as follows:

Week ended December 29, 1906.

Original bill of health issued to 1 steamer after bathing the crew and disinfecting their personal effects by superheated steam; crew vaccinated. One supplemental bill of health granted to 1 steamship. The first vessel, the *Appalachee*, did not sail, as planned, on account of a collision with a steamship of the same company, which obliged both vessels to undergo repairs. One thousand three hundred and fifty pieces of freight viséed.

The report of the municipal health officer for the week ended December 30, 1906, shows 1 new case of smallpox.

No contagious diseases have been reported from outports.

Week ended January 5, 1907.

Three supplemental bills granted to 3 steamships after the usual inspection of crews and quarters. The original bill of health issued to the British steamship *Appalachee*, December 24, 1906, was reissued on January 1, 1907, after reinspection following the completion of repairs occasioned by a collision on the day this vessel was to have sailed. One original bill of health was issued to the U. S. S. *Galveston* on the certificate of the ship's doctor and without inspection of her
